Subject: Modification to the Capital Improvement List

Commissioners and Laura,

As you are aware the Jail is planning to install sprinklers in the part of the Jail closest to detention. In the process of bidding the sprinklers the Jail ask for an alternative 1 that would include the rec area of the Juvenile Detention facility. The additional cost would be approximately \$5,200. This would be a much better price than if we had to call the installers back and price it out at a later date.

In a previous action the board had approved an item on the Capital Improvement list to enclose the Rec area budgeted at \$10,000. I respectfully recommend increasing the Rec area amount to \$15,200 and include the sprinkler system as part of the rec area project.

The Capital Improvement Budget has enough appropriated funds to cover this additional cost.

Thank you for your consideration of this matter.

Lucy,

Would you put this item on as an add-on for Thursday?
