Re: Radio Equipment Surplus Request

Attached to this request, you will find a list of misc. radio equipment I would like to declare surplus and transfer to Radio Dan LLC for a cost of \$500.

When the Radio shop was closed, the YCOM director and Radio program manager went through all the supplies and equipment that was left at the shops. They inventoried everything, returned equipment to user agencies, and handed some equipment to Dan Apperson which is currently installed on our system. Everything left was determined to be unusable or garbage.

With the Radio shop being used by Public Works as a temporary shop for the next year, there is a need to surplus all the remaining items. Some of the items will be used by the shops, such as misc. nuts, bolts and wire. All the other items have little or no value, and Dan has offered to take those items for a cost of \$500. Everything remaining will be disposed of by the shops.

I am requesting the board to declare all the items on the attached list as surplus and allow the sale to Radio Dan LLC for \$500.

Sincerely,

Sheriff Tim Svenson
