Subject: Board Consideration: HHS Position Management Roster

Hi Mary and Laura,

I would like to request board consideration to change current position management authority within our HHS Public Health Division. Specifically, I would like to decrease a Public Health RN II time by .48 full time equivalent (FTE) and increase the RN III (Family Nurse Practitioner) time by .3 FTE. While this model represents a change to position management authority within our Adopted 2018-2019 budget, we have sufficient expense authority for the change.

If approved, the change will allow us to streamline our clinical services for patients who are seeking long-acting reversible contraceptives (LARCs) which require a procedure by a nurse practitioner. We also anticipate other benefits to our business practices and efficiencies related to scheduling and retention of workforce.

Please let me know if you have any questions.

Carolina/Keri, please place this item on the next Board Agenda for approval. Suggested Board Agenda language:

“Decrease .48 fulltime equivalent (FTE) of RN II and add .3 FTE of RN III in the Health and Human Services position management roster.”

Thanks,

Silas Halloran-Steiner
