## Inter-Office Memorandum

Date: February 21, 2020

To: Yamhill County Board of Commissioners; County Counsel; County Administrator; Director of Community Justice

From: Jarod Logsdon, Parks Division Manager

Subject: Oregon State Marine Board Facilities Grant Application for Transient Dock Retrofit at Rogers Landing

Attachments (1): Grant Proposal

---

Yamhill County Parks is seeking Board of Commissioner approval to apply for an Oregon State Marine Board Facilities Grant to repair the transient dock at Rogers Landing and authorization for Parks Division Manager Jarod Logsdon to sign the application.

In a recent inspection by the Oregon State Marine Board, several signs of rot and wear were identified on the transient tie up dock at Rogers Landing. This grant proposal seeks to repair damage that occurred as a result of normal wear and tear from boating operations. Failure to address these maintenance concerns could result in further damage and closure of the dock. The project includes inspection and tightening of through-rods, replacement of rub strips, and replacement of the bull rail system. It is proposed that the Oregon State Marine Board Facility Grant funds (\$62,788.40) be used to hire a contractor and complete repairs. Yamhill County Parks will provide a 25% grant match (\$15,697.10) with both a soft match of in-kind administrative project management (\$2,288.40) and allocated matching funds from the department (\$13,408.70).
