Re: Request to declare property surplus – 40mm ammunition

Please consider this memo as a request of approval to declare approximately 670 rounds of unspent 40mm ammunition as surplus property to be donated to Josephine County Community Corrections per ordinance 499. In May of 2018, YCDCJ transitioned from 40mm to 9mm Glock firearms to stay compatible with our local law enforcement partners, rendering the leftover 40mm ammunition useless to YCDCJ. A statewide distribution list was used to reach law enforcement agencies that would have use for the ammunition. Josephine County was the first department to identify a need. The value is less than \$500 based on our current vendor, San Diego Police Equipment, which sells 1000 round ammunition units for approximately \$500.

Please let me know if you have any questions.

Thank you for consideration of this request.
