The goal now is to keep the PCI close to 76 over the next 5 years. Also, several roads required full depth repair. Regarding bridges, the project at Deer Creek Park is complete. **J. PUBLIC HEARINGS:**

1. Docket #P-10-22: Partition of an approximately 27-acre property into three (3) parcels, two of which will measure approximately 2.4-acres and the third will be approximately 22.44-acres. Applicant is applying for this partition using parcel size averaging. Applicant: Jonathan Jahnke; Appellant: Kathryn Jernstedt for Friends of Yamhill County. Tax Lot: 4512-01600.

Commissioner Berschauer opened the public hearing at 11:36 a.m. There were no abstentions or objections to the jurisdiction of the Board and there were no reports of a site visit, however Commissioner Johnston disclosed that while serving on the planning commission a decision had been made. Ken Friday read the statement pursuant to ORS 192.660(2)(h).

Staff Report: Lance Woods read the staff report noting the parcel does not have a situs address assigned and is located just North of the parcel with an address of 14100 NW Berry Creek Road, and just South of the parcel with an address of 13801 NW Willis Road. There are no records of a site evaluations for septic suitability on file and for the lots to be considered buildable, a site evaluation for septic suitability would need to be approved. Site evaluations were applied for proposed parcels 1 and 2 and were scheduled for evaluation on September 20, 2022.

Applicant: The defendant's attorney Andrew Stamp said that his client's main goal is to obtain two buildable lots and leave the remaining 22-acre lot alone for now. He also said his client is aware of the drainage issues on the 22-acre parcel due to wetlands but doesn't think the 2.4-acre parcel has any drainage issues.

Testimony in Support of the Application: None

Appellant: On behalf of the Friends of Yamhill County, Kathryn Jernstedt submitted testimony into the record. She asked the Board to include the wetlands delineation in the land development plan. Edward Shearer asked Kathryn Jernstedt to confirm the location of the third culvert that she had previously spoken about. There was some discussion between Ms. Jernstedt and Mr. Shearer, but in reviewing the audio the conversation was not captured.

Public Agency Report: The county sanitarian noted that as of mid-November 2023, records indicated that a septic evaluation had not been performed, however on November 30, 2023, the applicant submitted an application that was approved by the sanitarian.

Rebuttal by the Applicant: Regarding the culverts, Andrew Stamp said the county had changed out the culvert at the end of the stream. He noted that Publics Works was contacted to determine if the culvert located at Berry Creek Rd had any drainage issues. Mr. Stamp noted that his client installed a third culvert on the 22-acre parcel in 2022 to allow the direction of a road to go from West to East. He also mentioned that the stream located on 22-acre parcel flows through the center of the parcel and through the culvert. Regarding the wetland's delineation, Andrew Stamp noted that his client is amenable to a condition of approval which would require a full wetland delineation before the 22-acre parcel could be developed. Mr. Stamp confirmed that an existing water well is located at the top of the hill, but it is not located on either of the two proposed lots. Mr. Jonathan Jahnke discussed the option of a shared well and its ability to serve 3 parcels while producing 17 gallons/minute.

Staff Recommendations: Lance Woods stated that staff recommends approval of the land partition request with conditions of approval which Mr. Woods read into the record.

The public hearing was closed at 12:34 p.m.

Deliberation: Commissioner Berschauer said that she is aware of the possibility of the larger lot becoming a larger subdivision; however, the Board is deliberating based on what is brought forth today.

*[The motion to uphold the Planning Commission's decision to approve the application and deny the appeal passed unanimously. Final written decision and findings with conditions to be adopted on February 23, 2023]*
