SECTION 7. AMENDMENTS TO THE 1973 CODE.

(1) Where the requirements or conditions imposed by a provision of this Ordinance differ from the requirements or conditions imposed by the 1973 Code or any amendments thereto, the provision which is the more restrictive shall govern.

(2) Without restricting the generality of the foregoing, the 1973 Code is further amended as follows:

(a) Section 3001, by adding a third clause:

"(c) Ventilation. Not less than one (1) inch of air space shall be provided between the veneer siding and the wall, with thirty (30) pound felt to be applied under the veneer and twelve (12) inches up the wall and weep holes four (4) feet on center in vertical joints."

(d) Section 7012(d), by adding the following:

"1. Foundation Protection. All foundations and footings below grade shall be designed and constructed so as to be adequately protected at all points against penetration of moisture. Normal precautions against water or dampness will require the measures contained herein. In those locations where the foundation is subjected to a high water table, or where surface or ground water drainage will present a problem, additional precautions may be required.

"2. Foundation Drains. Foundation or footing drains connected to a positive outfall shall be provided around foundations and footings. Tile shall be installed below the area to be protected. Clay or concrete drain tile shall comply with ASTM C-4 or ASTM C-412, or tile may be asbestos cement or bituminized fiber pipe.

"Foundation drains may be omitted at the discretion of the Building Official where well drained soil exists or where ground or surface water will not present a problem."

SECTION 8. RESPONSIBILITY OF OWNER.

Neither the granting of a permit, nor the approval of the drawings and specifications, nor inspections made by the Building Inspector shall in any way relieve the owner of such building or structure from full responsibility for carrying out all work in accordance with the requirements of this Ordinance.

SECTION 9. PROHIBITIONS.

(1) No person shall commence or continue any work in respect to any building, structure or mobile home without first obtaining a permit from the Building Inspector.

(2) No person shall commence or continue any work in respect to any subsurface sewage-disposal system without first obtaining a permit from the Health Officer.

- (e) the proposed site is located, all or in part, within any area determined by the Yamhill County Board of Commissioners to necessitate special building requirements as a result of potential floods, surface water, or potentially hazardous geologic or soil conditions, and designated either "Yamhill County Special Permit Area", or "Flood Hazard District", or "Flood Plain Zone" in any County ordinance, and the special permit required by such ordinance has not been obtained by the applicant. All special building requirements included in any such special permit shall be incorporated into the permit issued to the applicant under this Ordinance.
- (f) in the opinion of the Building Inspector, the results of the tests referred to in Section 12 of this Ordinance are not satisfactory.
- (3) (a) The schedule of fees to be charged for the issuance of a permit and for plan-checking under this Ordinance is as provided in Section 303 of the 1973 Code, except as follows:

At the hearing the Board shall consider evidence presented by the appellant, together with any reports, comments, or information with respect thereto

from any public office or official theretofore consulted, and any other evidence desired for consideration by the Board and presented at such hearing.
