

2021-2025 change.org Petition in Support of the Yamhelas Westsider Trail for Yamhill County:

Despite widespread county support, Yamhill County Commissioners are planning to do a favor for a small, but well funded and vocal opposition group and kill the Yamhelas Westsider Trail Project, a planned public rail to trail walking, bike and equestrian path.

We need to let them know how important this project is to seniors, families, economic development and all Yamhill citizens who love outdoor recreation. Now is the time to be investing, not divesting in Yamhill county!

Some helpful background information:

This is not an issue of cost. Stopping work on the trail could actually force the county to repay up to \$3 million in grants that were made for the express purpose of developing a trail. While commissioners are exploring the possibility of selling the county owned land the trail would run on to cover these costs. The issue remains that they would be wholesaling Yamhill assets and funneling the money out of the county. In addition to being costly, this would harm the county's reputation as a trustworthy grant recipient for any future grants.

The Trail through farm land is NOT illegal! The Land Use Board of Appeals (LUBA) did NOT reverse the Conditional Use Permit decision, they issued another remand, which is just asking the County for more detailed information about how it will protect farm property and practices.

The current Master Plan process will answer many of the questions and issues that LUBA, adjacent landowners and some county commissioners have had. Stopping it would be premature and hypocritical.

This is not a property rights issue. The Trail right-of-way was owned by the railroads for 150 years before the County bought it in 2017. It has been a transportation corridor all this time.

"After 150 years of corporate railroad ownership, Yamhill County bought this land in 2017 - which means it is now public land. Public land should benefit the entire community, and the Yamhelas Westsider Trail will do exactly that. How wonderful it would be to have a safe, off-road trail for people young & old to walk, bike, run, and ride. The concerns of private landowners are being addressed, so their well-funded opposition ought not deprive the entire community of this wonderful opportunity."

2021-2025 change.org Petition in Support of the Yamhelas Westsider trail for Yamhill County:

"The YWT will help the communities it serves in the following ways: Increasing equity and inclusivity: Yamhill and Carlton have long shared a school system, but kids who attend the schools have to be bussed or driven the three flat miles between the towns because Hwy 47 is much too dangerous to ride or walk along. This means that any child who wants to participate in afterschool programs has to have a ride home. If they could ride their bikes or walk instead this would allow more kids to participate and give parents who can't afford other options some peace of mind. I know this from experience because I used to be one of those kids. At the high school level, this also includes the kids in Gaston because they join the YC sports teams. (The ride from Gaston to Yamhill is a long bike ride, yes, but not extraordinary; my son used to regularly ride with me twice that far in Portland when he was in elementary school.) Educational opportunities: we at OEA don't just teach about frogs, fish, fragaria, and fungi. We teach outdoor science, including agriculture and forestry practices. A trail that encourages learning about agriculture could not only impress upon people the importance of knowing where their food comes from and how, but could also inspire a new generation of farmers and agricultural supporters. Creating jobs: Bicycling for recreation contributed \$1.5 billion to the Oregon economy in 2019 - BikePortland.org https://bikeportland.org/.../bicycling-for-recreation. Getting a piece of that could be a game changer for the communities along the trail. Many of the jobs that are created would be great jobs for teens to have, which is sorely needed to help make teens productive citizens and

teach them important skills. The communities already have an organization in place that could easily create a structure to take advantage of such an opportunity: Yamhill Carlton Together Cares. Reducing reliance on fossil fuels and decreasing greenhouse gas emissions. Reducing auto traffic and wear and tear on our roads (I commuted 20 miles per day on a bike year round when I lived in an area that had safe routes to do so). This would in turn increase safety on the roads. Providing equitable and safe opportunities to exercise and recreate. Access to nature: much of the proposed trail will go through wetlands, and once the barriers are planted, there will be many birds twittering in the trees around the trail."

"I used to walk those tracks to Yamhill from my home town of Carlton when I was a kid. It was full of brambles and kind of scary, but better than the highway with no shoulders and traffic flying. It would be so useful to have a nice passable trail. For our local families especially, and our bike tourism. I own a family centered business and the thought that our county would have a resource that could raise their (my customers) quality of life like that just makes me feel happy all over. The potential lose for this is for a few individuals, and seems to me to be greatly exaggerated. Best Regards, Linda Hays"

2021-2025 change.org Petition in Support of the Yamhelas Westsider trail for Yamhill County:

"My family lives 5 minute from the potential Trailhead near Gaston. We have been eagerly awaiting the trail - how wonderful to have a safe place to bike, walk and ride horses! When we learned it would connect to the brand new Chehalem Ridge Park (<https://www.oregonmetro.gov/chehalem-ridge-nature-park>) and the new Wapato Lake Wildlife Refuge (https://www.fws.gov/refuge/Wapato_Lake/), we became even more excited. The evidence of potential benefit to Yamhill County is clear - Rails to Trails projects have been wildly successful across America, bringing grant money and tourism to boost local economies, and providing safe places for families to be outside. Sure, there may be challenges, but we are capable of doing hard things, together. Commissioners should allow the Master Plan to be completed, so that the community can get past fear and hyperbole and understand the real challenges.. AND solutions."

2021-2025 change.org Petition in Support of the Yamhelas
Westsider trail for Yamhill County:

"This is an important resource for our area and local residents. Hiking and walking are great activities for all ages and inexpensive recreation making it available for all income levels. To have this trail so close to us means not having to drive so far to have an outdoor experience, something that has shown to help relieve stress and promote good mental health."

2021-2025 change.org Petition in Support of the Yamhelas
Westsider trail for Yamhill County:

"my husband and I loved biking rails to trails in Idaho across the pan handle, safe travel, clean bathrooms and water, small towns for coffee, tours and B & Bs, little restaurants, shops and breweries, as well as lakes, rivers, forests, wetlands and birding. We give overnight stays to touring cyclists from all over the world, when they get caught on our country 2 lane highways their tales are of no shoulder, traffic, and generally unable to be safe. The more we connect trails with our communities the more we make people safe and also show off our small towns and beautiful farmland and country side. There are rails to trails all over the country and it's needed here"

2021-2025 change.org Petition in Support of the Yamhelas Westsider trail for Yamhill County:

"Especially in these times when one of the few healthy activities that families can individuals can do safely is hiking outdoors, it would be great to have another local accessible resource for all people, regardless of economic means, to hike and bike and ride safe from traffic and other dangers. Though this trail will take some time to develop, it will be a wonderful legacy for the future citizens of this valley. Just as the Banks Vernonia trail has brought recreational options and business to Banks and Vernonia, the economic impact of this trail could be quite significant for the towns of Gaston, Yamhill and Carlton, bringing another tourism stream of outdoor enthusiasts to these townships. What a great way to connect all our communities and celebrate the beauty of the Willamette Valley together."

"Yamhill county rural roads are in general just not that safe for cycling. Most have little if any shoulders and cars travel at highway speeds. Having a safe place to ride would be amazing, especially as a place to ride with my young grandchildren. I see it also as a future tourist attraction for our area. It's a no-brainer!"

Westsider trail for Yamhill County:

"This intact right-of-way is a precious county transportation resource that can provide a safe, healthy route for pedestrians, bicyclists, students for generations to come. If the County Commissioners choose to break it up and squander its value, it will be lost forever. The existing Highway 47, with its deep ditches, steep embankments, blind curves and lack of shoulders is a death trap for non-motorized users (i.e., our children and friends). We cannot afford to lose this trail route."

2021-2025 change.org Petition in Support of the Yamhelas Westsider trail for Yamhill County:

"What I hear – from both sides – is a lot of conjecture on who the Trail will help, and who it will hurt. No one is taking the concerns of the Farmers lightly, and I'm sure the Farm community is concerned for their neighbors who are small business people and stand to gain should the Trail go through. Instead of all this conjecture – lets get to the facts: Finish the Master Plan (its being paid for by grant money the county already has) and complete an Economic Impact Study. Lets Answer real questions and not sit around posting “what ifs”. Some “what ifs” that are actually real and should be addressed. I've lived here in Yamhill County my entire life. I'm aggressively pro-business and not keen on onerous taxes and stupid regulations. I'm also disappointed by the Trail conversation – the Yamhill County I grew up in, people didn't stand around complaining about something that needed fixing, neighbors worked together and actually fixed things."
