Not applicable, except that for any parcel of less than one acre, the maximum parcel coverage shall be 15 percent.

D. Access.

The following standards apply to all roads and driveways, except for private roads accessing only commercial forest uses, which access uses permitted under Section 401.02 or approved under Sections 401.03 or 401.04 of this section. **Variations from these standards may be granted by the fire service having responsibility for the area when topographic conditions make these standards impractical and where the local fire protection district states the access is acceptable for their fire-fighting equipment:**

1. Width. Access roads serving three (3) or fewer dwellings shall have a 12 foot improved width and a 20 foot horizontal clearance. Access roads serve more than three (3) dwellings shall have a 16 foot improved width and a 20 foot horizontal clearance.
2. Construction. Access roads must be improved with an all weather surface. Roads, bridges and culverts shall be designed and maintained to support a minimum gross vehicle weight (GVW) of 50,000 lbs. If bridges or culverts are involved in the construction of a road or driveway, written verification of compliance with the 50,000 lb. GVW standard shall be provided by a Professional Engineer, registered in Oregon.
3. Vertical Clearance. Access roads shall have an unobstructed vertical clearance of not less than thirteen and one-half (13.5) feet.
4. Turnarounds. Dead end roads over 150 feet in length shall provide a turnaround adequate for emergency vehicles.
5. Turnouts. Access roads greater than 400 feet in length shall have turnouts at a maximum spacing of one-half the length of the access road or 400 feet, whichever is less. Turnouts shall be required more frequently where visibility is limited. Turnouts shall be an all weather surface at least 10 feet wide and 40 feet long.
6. Road Grade. Road grades shall not exceed twelve (12) percent, with a maximum of 15 percent on pitches less than 200 feet long. ~~Variations from these standards may be granted by the fire service having responsibility for the area when topographic conditions make these standards impractical and where the local fire~~

~~protection district states their fire-fighting equipment can negotiate the proposed roads grade.~~

7. Before a dwelling may be established on any parcel as provided in this Section, the parcel shall have a legal, safe and passable means of access by abutting at least 20 feet either directly upon a public road, or by a private easement which is at least 30 feet in width for its entire length and which also abuts upon a public road for at least 30 feet. Nothing in this Section shall be construed to vary or waive the requirements for creation of any new access contained in any Land Division Ordinance legally adopted by Yamhill County.

E. Clear-Vision Areas.

A clear-vision area shall be maintained on the corner of any parcel at the intersection of any two of the following: county roads, public roads, private roads serving four or more parcels, and railroads. A clear-vision area shall contain no sight-obscuring structures or plantings exceeding 30 inches in height within a triangle formed by the lot corner nearest the intersection, and the two points 20 feet from this corner as measured along the parcel lines adjacent to the intersection rights-of-way. Trees exceeding this height may be located such that their branches extend into this triangle, provided they are maintained to allow at least 12 feet of visual clearance within the triangle below the lowest hanging branches.

F. Height.

1. The maximum building height for any dwelling shall be 35 feet;
2. The maximum building height for all other structures shall be 45 feet; and
3. Appurtenances usually required to be placed above the roof level and not intended for human occupancy such as spires, belfries, cupolas, antennas, water tanks, ventilators, chimneys and wind generators are not subject to the height limitations of this ordinance.

G. Occupancy of Recreational Vehicles.

One recreational vehicle shall be permitted to be parked on any parcel in conjunction with a principal dwelling, and may be used for the temporary accommodation of guests for a period of up to 30 days total in any year. In no case shall any recreational vehicle be used as a principal dwelling or rented.

[Amended 5/22/96, Ord. 607]

H. Off-Street Parking.

1. In the F-80 District, prior to establishment of any dwelling, sufficient area must be provided to allow for at least one emergency vehicle turnaround.

2. Parking requirements for those uses which may generate traffic beyond what is normally expected in the F-80 District shall be determined by the Director subject to the provisions of Section 1007.

401.11 Permit Expiration Dates

- A. Notwithstanding other provisions of this Ordinance **and except as provided for in subsection 401.11 (D)**, a discretionary decision, except for a land division, approving a proposed development in the Forestry zone is void two years from the date of the final decision if the development action is not initiated in that period. An extension period of up to 12 months may be granted if:
 1. An applicant submits a written request for an extension prior to expiration of the development approval period, stating the reasons that prevented the applicant from beginning or continuing development within the approval period; and
 2. The county determines that the applicant was unable to begin or continue development during the approval period for reasons for which the applicant was not responsible.
- B. Approval of an extension granted under this rule is not a land-use decision described in ORS 197.015 and is not subject to appeal as a land-use decision.
- C. Additional one-year extensions may be authorized where applicable criteria for the decision have not changed. [Amended 5/22/96, Ord. 607]
- D. **If a permit is approved for a proposed residential development on agricultural land outside of an urban growth boundary, the permit shall be valid for four years. Any extension of a permit for residential development shall be valid for two years. For the purpose of this subsection, "residential development" only includes the dwellings provided for under ORS 215.284, 215.705(1) to (3), 215.720, 215.750 and 215.755(1) and (3)**

Properties in the Exclusive Farm District are primarily large, contiguous relatively flat terrace, valley-floor or low foothill holdings. In Exclusive Farm Use Districts, nonfarm residential and other development which might likely be affected by normal farm management practices, will be limited or prohibited so as to maximize the productivity potential of vicinity farmlands.

402.02 Permitted Uses.

In the Exclusive Farm Use District, the following uses shall be permitted subject to the standards and limitations set forth in subsection 402.09 and any other applicable provisions of this ordinance:

- A. Farm uses as defined in Subsection 402.10.

- E. A facility for the processing of farm crops located on a farm operation that provides at least one-quarter of the farm crops processed at the facility. The building established for the processing facility shall not exceed 10,000 square feet of floor area exclusive of the floor area designated for preparation, storage or other farm use or devote more than 10,000 square feet to the processing activities within another building supporting farm uses. approvals in order to insure compliance with relevant criteria. The following uses are subject to the type of notice requirements of Section 1301 indicated.

- A. Principal dwelling customarily provided in conjunction with farm use on high-value farmland, subject to the following (Type A notice):
 - 1. The subject tract is currently employed for farm use, and produced at least \$80,000 (~~1994 dollars~~) in gross annual income from the sale of farm products in each of the last two years, or three of the last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the gross income attributed to the tract.
 - 2. The dwelling will be occupied by a person or persons who produced the commodities which grossed the income in subsection (1) of this Section.
 - 3. Except for permitted seasonal farm worker housing, there is no other dwelling on the subject tract. [Subsection A added 3/19/98, Ord. 643]

 - b. Helps maintain agricultural processors and established farm markets;
 - c. When determining whether a farm is part of the commercial agricultural enterprise, not only what is produced, but how much and how it is marketed shall be considered. [Subsection C amended 3/19/98, Ord. 643]

D. Principal dwelling customarily provided in conjunction with farm use on a tract that is not high-value farmland, under the following circumstances (Type A notice):

2. The subject tract is capable of producing annual gross sales of county indicator crops, as determined by OAR 660-33-135(4), at a level equal to or greater than the median of those farms within the study area defined in subsection (6) of this Section.
3. The subject tract is currently employed for a farm use at a level capable of producing the annual gross sales required in subsection (2) of this Section. 4. The subject lot or parcel on which the dwelling is proposed is at least 10 acres in size.
5. Except for permitted seasonal farm worker housing, there is no other dwelling on the subject tract.

6. In order to identify the commercial farm tracts to be used in subsections (1) and (2) of this Section, the gross sales capability of each tract in the study area, including the subject tract, must be determined, using the gross sales figures provided by the Land Conservation and Development Commission pursuant to OAR 660-33-135(4) as follows:
 - a. Identify the study area. This includes all the land in the tracts wholly or partially within one mile of the perimeter of the subject tract;
 - b. Determine for each tract in the study area the number of acres in every land classification from the county assessor's data;
 - c. Determine the potential earning capability for each tract by multiplying the number of acres in each land class by the gross sales per acre for each land class provided by the Land Conservation and Development Commission pursuant to OAR 660-33-135(4). Add these to obtain a potential earning capability for each tract;
 - d. Identify those tracts capable of grossing at least \$10,000 based on the data generated in subsection (6)(c) of this Section;
 - e. Determine the median size and gross sales capability for those tracts capable of generating at least \$10,000 in annual gross sales to use in subsections (1) and (2) of this Section. [Subsection D added 3/19/98, Ord. 643]

 4. The farm operator shall continue to play the predominant role in the management of the farm. A farm operator is a person who operates a farm, doing the work and

making day-to-day decisions about such things as planting, harvesting, feeding, and marketing. [Subsection E amended 3/19/98, Ord. 643]

F. A secondary dwelling customarily provided in conjunction with farm use for farm help, under the following circumstances (Type A notice):

1. The secondary dwelling will be occupied by a person or persons who will be principally engaged in the farm use of the land and whose seasonal or year round assistance in the management of the farm use, such as planting, harvesting, marketing or caring for livestock, is or will be required by the farm operator.

3. The ~~principal~~ primary farm dwelling to which the proposed dwelling would be accessory satisfies one of the following:
 - a. On land identified as high-value farmland, the ~~principal~~ primary farm dwelling is located on a farm operation that is currently employed for farm use, and produced at least \$80,000 in gross annual income from the sale of farm products in each of the last two years, or three of the last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the gross income attributed to the tract; or
 - b. On land not identified as high-value farmland, the ~~principal~~ primary farm dwelling is located on a farm operation that is currently employed for farm use, and produced at least \$40,000 in gross annual income from the sale of farm products in each of the last two years, or three of the last five years. In determining the gross income, the cost of purchased livestock shall be deducted from the gross income attributed to the tract.
4. The secondary dwelling will be located:
 - a. On the same lot or parcel as the ~~principal~~ primary farm dwelling; or
 - b. On the same tract as the ~~principal~~ primary farm dwelling when the lot or parcel on which the ~~secondary~~ accessory farm dwelling will be sited is consolidated into a single parcel with all other contiguous lots and parcels in the tract; or
 - c. On a lot or parcel on which the ~~principal~~ primary farm dwelling is not located, when the accessory farm dwelling is limited to only a

manufactured dwelling ~~and with~~ a deed restriction is filed with the County Clerk. The deed restriction shall **be filed with the county clerk and** require the secondary **manufactured** dwelling to be removed when the lot or parcel is conveyed to another party. [Subsection F added 3/19/98, Ord. 643]

d. On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is limited to only attached multi-unit residential structures allowed by the applicable state building code or similar types of farm labor housing as existing farm labor housing on the farm or ranch operation registered with the Department of Consumer and Business Services, Oregon Occupational Safety and Health Division under ORS 658.750. A county shall require all accessory farm dwellings approved under this subparagraph to be removed, demolished or converted to a nonresidential use when farm worker housing is no longer required; or

e. On a lot or parcel on which the primary farm dwelling is not located, when the accessory farm dwelling is located on a lot or parcel at least the size of the applicable minimum lot size and the lot or parcel complies with the gross farm income requirements in OAR 660-033-0135(5) or (7), whichever is applicable;

~~G. Seasonal farm worker housing, subject to Section 1101 for Site Design Review (Type B notice) when:~~

~~1. The housing is limited to occupancy by seasonal farm workers and their immediate families.~~

~~2. The housing shall be occupied for no more than nine months (273 days) per year.~~

G. A dwelling may be considered customarily provided in conjunction with a commercial dairy if:

1. The subject tract will be employed as a commercial dairy as defined in this ordinance; and

2. The dwelling is sited on the same lot or parcel as the buildings required by the commercial dairy; and

3. Except for seasonal farm worker housing, there is no other dwelling on the subject tract; and

4. The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding, milking or pasturing of the dairy animals or other farm use activities necessary to the operation of the commercial dairy farm; and
 5. The building permits, if required, have been issued for and construction has begun for the buildings and animal waste facilities required for a commercial dairy farm; and
 6. The Oregon Department of Agriculture has approved the following:
 - a. A permit for a “confined animal feeding operation” under ORS 468B.050 and ORS 468B.200 to 468B.230; and
 - b. A Producer License for the sale of dairy products under ORS 621.072.
- H. Replacement dwelling to be used in conjunction with farm use if the existing dwelling has been listed in the county inventory as historic property and on the National Register of Historic Places (Type A notice).
- I. Principal dwelling not provided in conjunction with farm use on a lot or parcel created before January 1, 1993, subject to the following standards and criteria (Type B notice):
1. The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use.
 2. The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils.
 3. The dwelling will be sited on a lot or parcel created before January 1, 1993.
 4. The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern of the area, the cumulative impact of possible new nonfarm dwellings on other lots or parcels in the area similarly situated shall be considered. To address this standard, the county shall:
 - a. Identify a study area for the cumulative impacts analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall

describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area;

- b. Identify within the study area the broad types of farm uses (irrigated or nonirrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc.) And the dwelling development trends since 1993. Determine the potential number of nonfarm/lot of record dwellings that could be approved, including identification of predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under ORS 215.263(4). The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;
 - c. Determine whether approval of the proposed nonfarm/lot-of-record dwellings together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of the existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area.
5. The dwelling complies with other conditions the county considers necessary, including but not limited to provision for sewage disposal, emergency vehicle access, and public road approach.
 6. The tract on which the dwelling is to be sited does not include a dwelling.
 7. Prior to issuance of a residential building permit, the applicant shall provide evidence that the county assessor has disqualified the lot or parcel for valuation at true cash value for farm or forest use; and that additional tax or penalty has been imposed, if any is applicable, as provided by ORS 308.370 or 308.765 or ORS 321.352, 321.730, and 321.815. A parcel that has been disqualified under this subsection shall not re-qualify for special assessment unless, when combined with another contiguous parcel, it constitutes a qualifying parcel.
[Subsection I amended 8/13/98, Ord. 657]

2. The tract on which the dwelling is to be sited does not include a dwelling.
 3. If the lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract.

the subject tract. The governing body of a county must interpret the center of the subject tract as the geographic center of the flaglot if the applicant makes a written request for that interpretation and that interpretation does not cause the center to be locate outside the flaglot. Up to two of the four dwellings may lie within an urban growth boundary, but only if the subject tract abuts an urban growth boundary;

A. “Flaglot” means a tract containing a narrow strip or panhandle of land providing access from the public road to the rest of the tract.

B. “Geographic center of the flaglot” means the point of intersection of two perpendicular lines of which the first line crosses the midpoint of the longest side of a flaglot, at a 90-degree angle to the side, and the second line crosses the midpoint of the longest adjacent side of the flaglot.

2. The tract on which the dwelling is to be sited does not include a dwelling.
3. If the lot or parcel on which the dwelling will be sited was part of a tract on November 4, 1993, no dwelling exists on another lot or parcel that was part of that tract.

4. When the lot or parcel on which the dwelling will be sited is part of a tract, the remaining portions of the tract shall be consolidated into a single lot or parcel when the dwelling is allowed.
5. The dwelling is not prohibited by, and complies with the Comprehensive Plan and other provisions of this ordinance and other provisions of law, including but not limited to floodplain, greenway, and airport overlay restrictions.
6. The tract on which the dwelling is to be sited is on high-value farmland as defined in subsection 402.10(E)(1).
7. The Planning Commission determines that:
 - a. The lot or parcel cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. For the purposes of this section, this criterion asks whether the subject lot or parcel can be physically put to farm use without undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel's limited economic potential demonstrate that a lot or parcel cannot be practicably managed for farm use. Examples of "extraordinary circumstances inherent in the land or its physical setting" include very steep slopes, deep ravines, rivers, streams, roads, railroad or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms. A lot or parcel that has been put to farm use despite the proximity of a natural barrier or since the placement of a physical barrier shall be presumed manageable for farm use;
 - b. The dwelling will comply with the provisions of Section 402.07(A); and
 - c. The dwelling will not materially alter the overall land use pattern of the area.
8. The County Assessor shall be notified that the county intends to allow the dwelling.
9. For purposes of this section 402.03(L), "owner" includes the wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, son-in-law, daughter-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent, stepchild, grandparent, or grandchild of the owner or business entity owned by any one or combination of these family members.

10. The State Department of Agriculture shall be provided notice of the application at least twenty (20) days prior to the public hearing before the Planning Commission.

An extension period of up to 12 months may be granted if:
1. An applicant makes a written request for an extension prior to expiration of the development approval period, stating the reasons that prevented the applicant from beginning or continuing development within the approval period; and
 2. The Planning Director determines that the applicant was unable to begin or continue development during the approval period for reasons for which the applicant was not responsible.
- B. Approval or denial of an extension granted under this rule is an administrative decision, is not a land-use decision described in ORS 197.015, and is not subject to appeal as a land-use decision. However, the Board, on its own motion, may order review of the decision of the Director within 15 days of the decision.
- C. Additional one-year extensions may be authorized by the Planning Director where applicable criteria for the decision have not changed.

“The subject property is located in an area designated for mineral resource uses. It is the County policy to protect mineral resource operations from conflicting land uses in such designated areas. Accepted mineral resource and quarry

practices in this area may create inconveniences for the owners or occupants of this property. However, Yamhill County does not consider it the responsibility of the operator of a mineral resource operation to modify accepted practices to accommodate the owner or occupants of this property, with the exception of such operator's violation of State law." [Added 8/13/98, Ord. 657]

EF. Prior to issuance of a residential building permit, the landowner shall sign an affidavit acknowledging the following declaratory statement and record it in the deed and mortgage records for Yamhill County:

It is the county policy to protect agricultural operations from conflicting land uses in such designated areas. Accepted agricultural practices in this area may create inconveniences for the owners or occupants of this property. However, Yamhill County does not consider it the agricultural operator's responsibility to modify accepted practices to accommodate the owner or occupants of this property, with the exception of such operator's violation of state law."

When all parcels subject to the proposed adjustment are as large or larger than the minimum lot size in the zone, no parcel shall be reduced below the applicable minimum lot size. The lot line adjustment shall not result in an increase in the potential number of dwellings on the parcels. When an area that contains an existing dwelling will be conveyed from one parcel (Parcel A) to the adjacent parcel (Parcel B), Parcel B must either receive land use approval for the dwelling under the terms of this ordinance, or, in the alternative, a deed affidavit shall be recorded by the owner of Parcel A prohibiting the establishment of any new principal dwellings on the adjusted parcel or parcels. - b. A parcel created by the land division that contains a dwelling is large enough to support continued residential use of the parcel.

Trees exceeding this height may be located such that their branches extend into this triangle, provided they are maintained to allow at least 12 feet of visual clearance within the triangle below the lowest hanging branches.

G. Height.

1. The maximum building height for any dwelling shall be 35 feet.

2. The maximum building height for all other structures shall be 45 feet.

~~G. Seasonal farm worker housing on a tract that was predominantly in agricultural use on January 1, 1993, subject to Type B notice procedures and Section 1101 for Site Design Review when:~~

- ~~1. The housing is limited to occupancy by seasonal farm workers and their immediate families;~~
- ~~2. The housing shall be occupied for no more than nine months (273 days) per year.~~

G. A dwelling may be considered customarily provided in conjunction with a commercial dairy if:

1. The subject tract will be employed as a commercial dairy as defined in this ordinance; and
2. The dwelling is sited on the same lot or parcel as the buildings required by the commercial dairy; and
3. Except for seasonal farm worker housing, there is no other dwelling on the subject tract; and
4. The dwelling will be occupied by a person or persons who will be principally engaged in the operation of the commercial dairy farm, such as the feeding, milking or pasturing of the dairy animals or other farm use activities necessary to the operation of the commercial dairy farm; and

H. Replacement dwelling to be used in conjunction with farm use on a tract that was predominantly in agricultural use on January 1, 1993 if the existing dwelling has been listed in the county inventory as historic property and on the National Register of Historic Places.

I. Principal dwelling not provided in conjunction with farm use on a tract that was predominantly in agricultural use on January 1, 1993, subject to Type B notice procedures and the following standards and criteria:

1. The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use.
2. The dwelling will be sited on a lot or parcel that is predominantly composed of Class IV through VIII soils that would not, when irrigated, be classified as prime, unique, Class I or II soils.
3. The dwelling will be sited on a lot or parcel created before January 1, 1993.
4. The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern of the area, the cumulative impact of possible new nonfarm dwellings and parcels on other lots or parcels in the area similarly situated shall be considered. To address this standard, the county shall:
 - a. Identify a study area for the cumulative impacts analysis. The study area shall include at least 2000 acres or a smaller area not less than 1000 acres, if the smaller area is a distinct agricultural area based on topography, soil types, land use pattern, or the type of farm or ranch operations or practices that distinguish it from other, adjacent agricultural areas. Findings shall describe the study area, its boundaries, the location of the subject parcel within this area, why the selected area is representative of the land use pattern surrounding the subject parcel and is adequate to conduct the analysis required by this standard. Lands zoned for rural residential or other urban or nonresource uses shall not be included in the study area;
 - b. Identify within the study area the broad types of farm uses (irrigated or nonirrigated crops, pasture or grazing lands), the number, location and type of existing dwellings (farm, nonfarm, hardship, etc.) And the dwelling development trends since 1993. Determine the potential number of nonfarm/lot of record dwellings that could be approved, including identification of predominant soil classifications, the parcels created prior to January 1, 1993 and the parcels larger than the minimum lot size that may be divided to create new parcels for nonfarm dwellings under ORS 215.263(4). The findings shall describe the existing land use pattern of the study area including the distribution and arrangement of existing uses and the land use pattern that could result from approval of the possible nonfarm dwellings under this subparagraph;
 - c. Determine whether approval of the proposed nonfarm/lot-of-record dwellings together with existing nonfarm dwellings will materially alter the stability of the land use pattern in the area. The stability of the land use pattern will be materially altered if the cumulative effect of the existing and potential nonfarm dwellings will make it more difficult for the existing types of farms in the area to continue operation due to diminished opportunities to expand, purchase or lease farmland, acquire

water rights or diminish the number of tracts or acreage in farm use in a manner that will destabilize the overall character of the study area.

5. The dwelling complies with other conditions the county considers necessary, including but not limited to provision for sewage disposal, emergency vehicle access, and public road approach.
 6. The tract on which the dwelling is to be sited does not include a dwelling.
 7. Prior to issuance of a residential building permit, the applicant shall provide evidence that the county assessor has disqualified the lot or parcel for valuation at true cash value for farm or forest use; and that additional tax or penalty has been imposed, if any is applicable, as provided by ORS 308.370 or 308.765 or ORS 321.352, 321.730, and 321.815. A parcel that has been disqualified under this subsection shall not re-qualify for special assessment unless, when combined with another contiguous parcel, it constitutes a qualifying parcel.
[Section I amended 3/19/98, Ord. 643; 8/13/98, Ord. 657]

1. The originating lot or parcel was predominantly in agricultural use on January 1, 1993 and is:
 - a. larger than the minimum lot size;
 - b. not stocked to the requirements under ORS 527.610 to 527.770;
 - c. composed of at least 95 percent Class VI through VIII soils; and
 - d. composed of at least 95 percent soils not capable of producing 50 cubic feet per acre per year of wood fiber.
 2. Any parcel created for a dwelling from the originating lot or parcel described in subsection (1) of this section will not be smaller than 20 acres.
 3. The dwelling or activities associated with the dwelling will not force a significant change in or significantly increase the cost of accepted farming or forest practices on nearby lands devoted to farm or forest use.
 4. The dwelling will not materially alter the stability of the overall land use pattern of the area. In determining whether a proposed nonfarm dwelling will alter the stability of the land use pattern of the area, the county will consider the cumulative impact of nonfarm dwellings on other lots or parcels in the area similarly situated and whether creation of the parcel will lead to creation of other

nonfarm parcels, to the detriment of agriculture in the area pursuant to the study required in Subsection 403.03(I)(4).

5. The dwelling complies with other conditions the county considers necessary, including but not limited to provision for sewage disposal, emergency vehicle access, and public road approach.
6. Prior to issuance of a residential building permit, the applicant shall provide evidence that the county assessor has disqualified the lot or parcel for valuation at true cash value for farm or forest use; and that additional tax or penalty has been imposed, if any is applicable, as provided by ORS 308.370 or 308.765 or ORS 321.352, 321.730, and 321.815. A parcel that has been disqualified under this subsection shall not re-qualify for special assessment unless, when combined with another contiguous parcel, it constitutes a qualifying parcel.

 - a. The lot or parcel cannot practicably be managed for farm use, by itself or in conjunction with other land, due to extraordinary circumstances inherent in the land or its physical setting that do not apply generally to other land in the vicinity. For the purposes of this section, this criterion asks whether the subject lot or parcel can be physically put to farm use without undue hardship or difficulty because of extraordinary circumstances inherent in the land or its physical setting. Neither size alone nor a parcel's limited economic potential demonstrate that a lot or parcel cannot be practicably managed for farm use. Examples of "extraordinary circumstances inherent in the land or its physical setting" include very steep slopes, deep ravines, rivers, streams, roads, railroad or utility lines or other similar natural or physical barriers that by themselves or in combination separate the subject lot or parcel from adjacent agricultural land and prevent it from being practicably managed for farm use by itself or together with adjacent or nearby farms.  - 3. The dwelling is not prohibited by, and complies with the Comprehensive Plan and other provisions of this ordinance and other provisions of law, including but not limited to floodplain, greenway, and airport overlay restrictions.
 - 4. If the tract consists of more than one lot or parcel, the lots or parcels that are not to support the dwelling are subject to deed restrictions that prohibit residential development or use of the lots or parcels to total acreage for future siting of dwellings for present or future owners.  - 2. The Planning Director determines that the applicant was unable to begin or continue development during the approval period for reasons for which the applicant was not responsible.

- B. Approval or denial of an extension granted under this rule is an administrative decision, is not a land-use decision described in ORS 197.015, and is not subject to appeal as a land-use decision. “The subject property is located in an area designated for mineral resource uses. It is the County policy to protect mineral resource operations from conflicting land uses in such designated areas. Accepted mineral resource and quarry practices in this area may create inconveniences for the owners or occupants of this property. However, Yamhill County does not consider it the responsibility of the operator of a mineral resource operation to modify accepted practices to accommodate the owner or occupants of this property, with the exception of such operator’s violation of State law.” [Added 8/13/98, Ord. 657]

 - 3. Minimizes the amount of forest lands used for the building sites, road access and service corridors; and
 - 4. Minimizes the risk associated with wildfire.

- B. The applicant shall provide evidence that the domestic water supply, if any, is from a source authorized in accordance with the Department of Water Resources Oregon Administrative Rules for the appropriation of ground water (OAR 690, Division 10) or surface water (OAR 690, Division 20) and not from a Class II stream as defined in the Forest Practices Rule (OAR 629-24-101(3)). If the water supply is from a well, a copy of the well constructor's report shall be submitted to the county upon completion of the well. If the water supply is unavailable from public sources or sources located entirely on the subject property, then the applicant shall provide evidence that a legal easement has been obtained permitting domestic water lines to cross the properties of affected owners.

- C. As a condition of approval for a dwelling under subsections 403.03 (M) through (P), if the tract is more than 5 acres in size the property owner shall submit a stocking survey report to the County Assessor and the Assessor shall verify that the minimum stocking requirements adopted under ORS 527.610 to 527.770 have been met.

- C. The dwelling is located upon a parcel within a fire protection district that fights residential fires, or shall be provided with residential fire protection by contract. A dwelling may be allowed on a parcel that does not comply with these provisions provided that:
 - 1. The applicant provides evidence that the applicant has asked to be included in the nearest fire protection district, but that district is unable to provide residential fire protection by contract; and
 - 2. The dwelling shall be provided with a fire sprinkling system; and

All trees shall be pruned to at least eight feet in height. Dead fuels shall be removed.
- G. A secondary firebreak of not less than 100 feet outside the primary firebreak shall also be constructed. The fire break is only required to be constructed on land surrounding the dwelling that is owned or controlled by the owner. Vegetation within the secondary firebreak should be pruned and spaced so that fire will not spread between crowns of trees. Small trees and brush growing underneath larger trees should be removed to prevent spread of fire into the crowns of the larger trees. Dead fuels shall be removed.

The secondary fire break shall be increased to 150 feet if the dwelling or structure is located on a slope of greater than 25% or other fire hazards exist. [Amended 3/19/98, Ord. 643]

- H. No portion of a tree or any other vegetation shall extend to within 15 feet of the outlet of a stovepipe or chimney.

Any parcel principally devoted to forest use subject to alteration in size through a lot-line adjustment shall be shown to be at least as economically efficient for forest practices, provide for continuous growing and harvesting of forest tree species at least as well as, and conserve other forest values at least as well as did the parcel prior to adjustment.
- c. When one or more parcels subject to a proposed adjustment are larger than the minimum lot size, the same number of parcels shall be as large or larger than the minimum lot size after the adjustment. When all parcels subject to the proposed adjustment are as large or larger than the minimum lot size in the zone, no parcel shall be reduced below the applicable minimum lot size.
- d. The lot line adjustment shall not result in an increase in the potential number of dwellings on the parcels. When an area that contains an existing dwelling will be conveyed from one parcel (Parcel A) to the adjacent parcel (Parcel B), Parcel B must either receive land use approval for the dwelling under the terms of this ordinance, or, in the alternative, a deed affidavit shall be recorded by the owner of Parcel A prohibiting the establishment of any new principal dwellings on the adjusted parcel or parcels.  - d. At least one dwelling is located on each lot or parcel created under this paragraph; and
 - e. The landowner of a lot or parcel created under this paragraph provides evidence that a restriction prohibiting the landowner and the landowner's successors in interest from further dividing the lot or parcel has been recorded with the county clerk of the county in which the lot or parcel is located. A restriction imposed under this paragraph shall be irrevocable unless a statement of release is signed by the county planning director of the county in which the lot or parcel is located indicating that the comprehensive plan or land use regulations applicable to the lot or parcel have been changed so that the lot or parcel is no longer subject to statewide planning goals protecting forestland or unless the land division is subsequently authorized by law or by a change in a statewide planning goal for land zoned for forest use or mixed farm and forest use. (3) A county planning director shall maintain a record of lots and parcels that do not qualify for division under the restrictions imposed under subsections (2)(e) and (4) of this section. The record shall be readily available to the public. (4) A lot or parcel may not be divided under subsection (2)(e) of this section if an existing dwelling on the lot or parcel was approved under: (a) A statute, an administrative rule or a land use regulation as defined in ORS 197.015 that required removal of the dwelling or that prohibited subsequent division of the lot or parcel; or Enrolled Senate Bill 715 (SB 715-B) Page 2 (b) A farm use zone provision that allowed both farm and forest uses in a mixed farm and forest use zone under a statewide planning goal protecting forestland.

7. Before a dwelling may be established on any parcel as provided in this Section, the parcel shall have a legal, safe and passable means of access by abutting at least 20 feet either directly upon a public road, or by a private easement which is at least 30 feet in width for its entire length and which also abuts upon a public road for at least 30 feet. Trees exceeding this height may be located such that their branches extend into this triangle, provided they are maintained to allow at least 12 feet of visual clearance within the triangle below the lowest hanging branches.

G. Height.

1. The maximum building height for any dwelling shall be 35 feet.
2. The maximum building height for all other structures shall be 45 feet.

1203. VARIANCE CRITERIA AND REQUIREMENTS**1203.01 Purpose and Scope.**

The purpose of a variance is to provide administrative relief when a strict application of the zoning requirements of lot width, lot depth, building height, setback, access, or other dimensional requirements, excluding lot area, would impose practical difficulties. These difficulties may result from geographic, topographic or other physical conditions on the site or in the immediate vicinity.

1203.02 Review Criteria.

A variance may be authorized, subject to the Type B application procedure set forth in Section 1301 and pursuant to subsection 1203.01, and upon adequate demonstration by the applicant that the proposed variance satisfies the following criteria:

- A. That special conditions and circumstances exist which are peculiar to the land, building or structure involved;
- B. That granting the proposed variance would be in the public interest and would be in harmony with the purpose and scope set forth in subsection 1203.01, the intent and purpose of the underlying zoning district and the intent and purpose of this ordinance;
- C. That the variance would result in minimal detriment to the immediately vicinity;
- D. That the variance requested is the minimum variance which would make possible the reasonable use of the applicant's land, building or structure; and
- E. That the special conditions and circumstances on which the application is based do not result from the negligent or knowing violation of this ordinance by the applicant.

1203.03 Conditions of Approval.

In approving an application for a variance, the decision-making body may impose such conditions as it deems appropriate to ensure that the intent of this section is carried out. Such conditions shall be reasonably related to the variance criteria set forth in subsection 1203.02.

1203.04 General Requirements.

Any variance authorized pursuant to this ordinance shall be subject to the following additional requirements:

- A. An authorized variance is not personal to the applicant and shall be deemed to run with the land;
- B. A variance shall be null and void one (1) year from the date it is granted unless completion or substantial construction has taken place. The Director may extend the variance for an additional period not to exceed one (1) year upon the receipt of a written request from the applicant demonstrating good cause for the delay and provided that the request for extension is received by the Director prior to expiration of the original variance approval.
- C. No variance shall be granted which allows the establishment or expansion of a use otherwise prohibited or subject to conditional use procedures.
- D. No variance shall be granted which shall have the effect of rezoning the property.
- E. No variance shall be granted which allows the creation of a parcel which is substandard to the minimum parcel size requirements of the particular zoning district.

1203.05 Compliance with Conditions.

Compliance with conditions imposed in approval of a variance and adherence to an approved plot plan shall be required. Any departure from these conditions of approval and approved plans constitutes a violation of this ordinance. The Director may revoke approval of any variance for failure to comply with any condition imposed in approval of the variance or for any other violation of this ordinance.

1203.06 Revocation of Variance.

The procedure for the revocation of approval of a variance shall be as follows:

- A. If, upon review by the Director, a violation of any condition imposed in approval of a variance is found, the Director shall inform the applicant by registered letter and first class mail of the violation and shall require compliance within sixty (60) days, or the Director will take action under subsection (B) of this section to revoke approval of the variance. The Director's letter, constituting Notice of Intent to Revoke Variance may be appealed to the Board within thirty (30) days of its mailing. The Board shall consider the appeal in accordance with Section 1403 and may affirm, reverse, or modify the Director's Notice of Intent to Revoke Variance. The applicant must comply with the Board's Order on Appeal of Notice of Intent to Revoke Variance within thirty (30) days of the issuance of the Board's decision. If the applicant does not comply with the Board's Order within thirty (30) days, the Director shall take action under Subsection (B) of this section to revoke approval of the variance. The Director may extend the time for compliance if the applicant

provides financial or other assurances suitable to the Director that the conditions of approval of the variance will be satisfied and maintained.

- B. If the violation is not corrected within the time required by subsection (A), the Director shall notify the applicant by registered and first class mail that the variance has been revoked, and that any subsequent action on the application will require a new application for a variance.

1203.07 Administrative Adjustments.

As a result of unique characteristics of specific lands, uses or structures, and in the event that setbacks, building heights, lot area or other dimensional ordinance standards are determined to be unreasonable or inappropriate by the Director, limited administrative adjustment of such standards may be authorized at the time application for building permit or land division is made providing the adjustment does not exceed 15% of the required standard, and the applicant can demonstrate satisfaction of one of the following criteria:

- A. That the adjustment is needed to permit a structural addition or new construction no closer to a property line than the existing structure(s).
- B. That the adjustment would provide for setbacks no less restrictive than those for structures on affected adjacent property(s).
- C. That the combined setbacks of structures on the parcel in question and adjacent affected parcels meet the combined respective setback requirements.
- D. That other special conditions or circumstances exist which are peculiar to the land or use structure involved, and which justify an adjustment, while still satisfying the intent of the standard.

1203.08 Exception to Variance

- A. A variance is not required to construct an addition to an existing structure that does not meet the setbacks listed in the underlying zoning district, provided that the addition will be located no closer to the property line or to any off-site dwelling than the existing structure.
- B. A variance to the setbacks listed in the underlying zoning district is not required to construct a building that will be no closer than 5 feet from a side or rear property line, provided that the adjacent property owners sign an affidavit stating that they approve of the location of the structure.
